

Noah Springer  
EVP, Third Party, and Asset Management

Noah joined Extra Space Storage in 2006, after several years in the banking industry. His initial responsibility was to acquire the third-party managed contracts from the newly acquired Storage USA portfolio. After working with many managed partners, and negotiating agreements for Extra Space Storage to begin operating their sites, Noah helped create ManagementPlus, the third-party management platform. Under Noah's leadership, ManagementPlus became the sector's largest third-party managed portfolio just three years after its formation.

In addition to overseeing ManagementPlus, Noah oversees the Asset Management and Construction Departments at Extra Space. This includes all value-add projects, commercial revenues, and joint ventures.

Noah has a Finance degree and an MBA from the University of Utah. Noah, a self-proclaimed "farm boy" from Illinois, lives in Salt Lake City, Utah with his wife and three children.
