

## **About Craig Harrigan**

Craig Harrigan – Principal & Co-Founder of 64Solar

Craig has been on the solar coaster since 2008. He has a finance background having worked at some of the largest firms on Wall St for 20 years prior. He started 64Solar in 2014 with a focus on commercial solar sales. We currently design and build projects across the United States. We have designed and built over 100 commercial projects over the last 6 years and the business continues to grow. We work with customers to design projects that benefit the customer's needs by using all available incentives to increase the return to the customer. Our projects come with a 10-year warranty on all work with equipment guarantees that go for 20 years. We would love to rent your roof by installing solar and other opportunities to get you an additional annual income stream.
