

### **About Nixon Oyugi**

As CEO and founder of Kawi Energy group, Nixon Oyugi is an expert in the field of energy engineering leading by example. Mr. Oyugi is process-oriented, maintains composure in high stake negotiations, and demonstrates excellent listening skills. As a leader, he provides a vision and mission that allows employees to excel and optimal outcomes for all customers through the development of cost-effective policies geared towards energy efficiency, new technology, design, implementation, and evaluation of related initiatives.

Transitioning from working as the Director of Transportation and Quality Control, he made the decision to follow his dream and passion of being an energy engineer. This led to the pursuit of a Bachelor of Science in Electrical Engineering and a shift in careers to working as an energy consultant. As a Sr. Energy Engineer, he envisioned a brighter future by becoming the founder and CEO of Kawi Energy group as a vehicle to deliver on his vision and passion in the field of engineering. Advancing through several roles and career transitions has led to a broad set of knowledge, skills, expertise, and networking opportunities. As an employer, he has 20 employees and has been a supporter of career development opportunities through offering internships at Kawi Energy group.

Nixon also strongly believes in improving the conditions of the community and environment. Nixon's vision has been the promotion of energy efficiency in the marketplace through the provision of customized solutions to his clients in the areas of compliance, technical energy assessments, and incentive and rebate management. During his years in the energy industry, Nixon has acquired multiple certifications and training that include: - CEM, EBCP, MFBA, AutoCAD, CATIA, Solid Edge, EQUEST, EQUIP, TREAT, HVAC etc.

Nixon is a member of the following organizations: ASHRAE, AEE, USGBC
